**Fuel Rats Knowledge Base**

**Dispatch Information**

- **When to clear or md a case**
  
  Not sure when to `!md` or `!clear` a case, check out: [How to File Cases / When to !md, !invalid and !delete cases](https://t.fuelr.at/frkb).

  When an invalid case happens, just use `!clear <case>`!

  REMEMBER: Always ensure there is an inject or a note explaining the situation of the case!

- **Debriefs in Other Languages**
  
  If a client is using an E:D version that doesn’t support Latin characters or needs a debrief translated by another Rat, the #debrief channel can be used in those cases. Please `/part` the channel after the debrief is completed.

  We also have some dispatch and debrief manuals:

  - [Russian](https://t.fuelr.at/debrief-russian)
  - [German](https://t.fuelr.at/debrief-german)

- **Use of MechaSqueak in IRC**
  
  Please check on the status of cases or get case information in PM with Mecha, whenever possible. Using `!list` or `!quote` in our public channels spams the channels with information that doesn’t need to be there and can give anyone watching information about cases. Remember that Rats aren’t necessarily the only ones who are in our channels.

  Mecha can be accessed via PM by typing `/query MechaSqueak[BOT]` or double clicking its name.

  Commands that are helpful to multiple Rats such as `!search` should be used in #ratchat for all to see. It also would be good experience to learn common system names, naming conventions and common client errors so that `!search` doesn’t even need to be used.

**Other News and Information**

- **Statistics**
  
  Our Stats are back! [Click here](https://t.fuelr.at/frkb).

- **Fuel Rat’s Squadrons**
  
  To join the Fuel Rats squadron you must both apply in-game (FUEL) and fill out the form at [https://t.fuelr.at/squadronapply](https://t.fuelr.at/squadronapply) using your Fuel Rats account. Please read the terms of squadron membership carefully.

- **Fuel Rats Decals**
  
  If you are eligible you can claim your decal code by logging into your rat account on our pages and punch in the button for it (but be gentle and punch it only once). Then redeem the decal using the link below.

- **Training**
  
  Training can be especially useful for Ratlings before their drill, but in no way should make them feel pressured to complete their drill before they’re ready. This training is not required in order to rat or dispatch.
