TFRM BGS Task

As a non-political and independent collective, we do not want to interfere with any other player related group's minor factions. If while working to support TFRM's minor faction, you encounter another minor faction that is not Al controlled, please notify the Mischief immediately and stop any activity that could interfere with the other faction.

- The channel #crunchyscave on IRC has real-time reporting of BGS updates and can be used for discussion and questions regarding the BGS. Feel free to stop by whenever.
- If you are in the vicinity of Rodentia, the home of our Colonia faction, The Fuel Rat Colony, please sell exploration data at Surly's Nest (PS) there. Please don't support TFRM elsewhere in Colonia, as we don't want to interfere with other player factions' BGS efforts there.

Current Actions:

Increase/stabilize TFRM influence in our core systems only

Please win any wars and elections for TFRM in our core systems only (those marked on the list below as "Increase/Maintain Influence".

Please also help maintain TFRM's influence in our core systems only. Current levels can be seen here: https://inara.cz/galaxy-minorfaction/32603/, and should ideally be over 40% for our core systems.

Also please continue to work against NEG in Fuelum.

The chart below identifies the broad goals for TFRM in the systems where we have a presence:
