

People Who Do Stuff

This page summarizes some of our teams, their contact information, and their "office hours" based on their general region. These hours are of course not set in stone, but should give you some indication (beyond that of seeing them active) as to who might be around at a particular time of day to assist with any issues.

Overseers

The best way to get a drill is by DM-ing an overseer. While approximate time zone availability is preferred, many overseers keep strange schedules- feel free to ask!

Some Ops team members (with an @ in front of their name) may also perform as overseer on occasion.

All seers can be easily spotted by their distinctive hat (in IRC they'll have a % in front of their name).

These are not the Overseers you are looking for!

The lists titled MODERATOR, OPERATIONS, TECHRATS, and MERCH are **not the Overseer list**. Scroll up for the Overseer information!
